

✓ industry, effort and intelligence.

I spoke a moment ago of the fact that as a rule the utilization of nature's resources commonly results in their increase rather than their diminution.

That is peculiarly true of one especially valuable resource of your mountain west:

I mean your water. The flow of a great river that runs away to the sea without

being utilized for power or for irrigation, *It is like a newspaper* is wasted forever. To prevent its

development is not to save it for the

benefit of a distant future. If it is to be of service tomorrow, it must be harnessed today.

Our whole view of the relation of water
