WHAT THIS
DAY
Means to You

By MARY BLAKE

Today is one of propitious outlook for the signing of legal documents and undertaking contractual obligations.

A child born today will be headstrong, dominant and self-reliant, but also self-indulgent.

If today is your birthday you should learn to take life less seriously, for after all there is a great deal of it and possibly a great many more than this one. You are inclined to live each day as if it might be your last.

You are not devoid of a sense of humor but you lack the nonchalance and spontaneity which might bring it into play, and you are naturally of a social temperament.

However, you have a dominant will power and you might acquire any characteristic you choose—yes, even to triviality and gawdiness, although it might be years before such qualities would actually become you.

You are undemonstrably sensitive to the opinions of your associates. There is no means you will not take to earn their good will and there is no misery they cannot put you in by the mere use of an uncomplimentary adjective. You should learn to take and give in converse with your fellow beings and cherish your own sovereignty as incapable of feeling insult.

You have a ready talent for organization and promotion, as long as you can do the planning and not the talking. If you have none of the qualities of the salesman, you do possess an abundance of the characteristics of the reliable administrator.

You are emotionally sensitive and extremely affectionate. In fact, love to you is a necessity, like air and food, and you will never fully realize your highest development until you finally find the one right person.

Beware of deception on the part of people born under the sign of Leo (July 21st to August 22nd).

Well known people born on this date are:

Paul Lawrence Dunbar, Negro poet and author.

Leonard Case, philanthropist.

James S. Metcalf, author.

THE BLUNT WOMAN

"Blunt women! Heaven deliver us from them!" men say. "Useless females make men walk around the block to keep from speaking to them. They are associated with unpleasantness in the man's mind, and he could hail a taxi to get out of the 'plain spoken' woman's way."

No hard truths, for men, thank you! They want all the opinions they get from you sugar-coated, and piled high with whipped cream.

How do you like my orange necktie," asks Mr. B, who has red hair
